Bright Horizons.

Benefits at the speed of life

Your life doesn't stand still. That's why we partner with **Bright Horizons®**, to bring you reliable benefits that keep up with your needs. Because when things run smoothly at home, everything else works better, too. Plus, we help make it all more affordable.

Early Education and Child Care
For infants through kindergarten prep, expert teachers personalize learning experiences to spark your child's unique curiosity, creativity, and confidence. Choose from programs with hours and schedules that meet your needs at centers near you.

Back-Up Child Care
You have care you can count on, for schedule changes, no-school days, and more in centers nationwide and at home. Available for planned or unexpected needs — and we help make it more affordable.

Back-Up Care for Adults and Seniors
Your loved ones deserve the best. Fill gaps in care with high-quality, fully vetted in-home caregivers for adult and senior relatives. Local adult center care is available, too. Book fun and enriching full-day professional care — meals and activities included, plus transportation in select locations. We help make it more affordable, and you can book in advance or for unplanned needs.

Camp
When school's out, camp fills in. Book trusted, local options that will keep your school-age child engaged and having fun, so you can stay focused on work. With STEM, sports, art, outdoor fun, and more, there are experiences for every interest.

Enhanced Family Supports
There's a whole network of valuable family resources — and real savings — included in your new benefits. Take advantage of child care options, senior care resources, tutoring, and more.
