SAVE MONEY ON HEALTH CARE EXPENSES

No one wants to spend any more than necessary on health care. Here are some ways to be a smart health care consumer and save money.

Stay in your network. Seeing a doctor in your network will almost always cost you less. Use in-network convenience care clinics. For minor illnesses and injuries, convenience care clinics located in pharmacies, grocery stores and other retail stores provide quick, affordable care.

Use the emergency room only for true emergencies. For non-life-threatening emergencies, visit an urgent care center instead of the emergency room. You'll get treated more quickly and pay less.

Ask for generic drugs. You can save up to 80% compared to brand-name drugs.

Limit hospital visits. Many procedures like MRIs and colonoscopies cost less when done at independent outpatient centers instead of a hospital. Outpatient surgery is also less expensive than hospitalization.

Get regular preventive care. Getting checkups, immunizations and other health screenings can help detect health problems early when they are less expensive to treat.

TALKING WITH YOUR DOCTOR ABOUT HEALTH CARE COSTS

If you need help navigating your benefits, contact one of the below resources:

- **UHA Member Services:** Call the number on the back of your ID card **1-808-532-4000, or 1-800-458-4600** from the neighbor islands.
- **Health Advocate: 866-799-2731**
- **Benefits Help Desk: 877-373-6535 or benefitshelpdesk@epicbrokers.com**
- **Inditex Benefits Team: benefits@us.inditex.com**

Remember: Certain services may require precertification or prior approval from the health plan provider to qualify services for payment. Typically, in-network providers will obtain the required precertification and approval. For out-of-network services, it is the member's responsibility to handle the precertification process. You may contact member services first to determine if precertification is necessary and if the provider is out-of-network.

Don't be afraid to ask about the costs and benefits of different treatment options and make choices that are right for you.

When your doctor recommends tests – To make sure you don't spend time and money on unnecessary tests, ask your doctor why the test is needed and where you can have it done at the lowest cost.

If your doctor recommends surgery or hospitalization – Ask if there are other treatment options that don't require surgery or if the procedure can be done on an outpatient basis. If you do need surgery, make sure the hospital, the surgeon and any other specialists your doctor refers you to are in the network.

When your doctor writes you a prescription – Ask if there are less expensive generic drugs or even over-the-counter medications that might work for you. Ask if you can improve your condition without drugs by changing your eating habits or getting more exercise.

FLEXIBLE SPENDING ACCOUNTS

Flexible Spending Accounts (FSAs) allow you to set aside money from your paycheck to pay Health Care and Dependent Care expenses with tax-free dollars. When you contribute to FSAs, your pre-tax contributions reduce your taxable income.

Be sure to estimate carefully as you cannot change your contribution amount during the year unless you have a qualifying life event.

IRS regulations stipulate that you may not enroll in both a Healthcare Flexible Spending Account (FSA) and open a Health Savings Account (HSA).

How the Accounts Work

- You estimate your eligible expenses for the year and decide how much you want to contribute to either or both an FSA Health Care and FSA Dependent Care account.
- The amount you choose will be deducted from each paycheck throughout the year before income taxes and Social Security taxes are calculated.
- As you have eligible expenses, you can be reimbursed from your accounts with tax-free dollars.
- The total amount you choose to contribute to your Health Care FSA is available immediately on the first day of the plan year. You can spend the dollars in your Dependent Care FSA as they are deposited each pay period.
- Health Care and Dependent Care Accounts are separate. The money in one account cannot be used to pay for expenses from the other account.
- If you enroll in the Health Care FSA, you will receive a debit card that you can use to pay for eligible health care expenses at the point of service. Otherwise, you can pay for services and submit a claim for reimbursement or request reimbursement online.
- If you enroll in the Dependent Care FSA, you will pay for services and submit a claim for reimbursement or request reimbursement online at **www.BenefitResource.com.**

DENTAL

Employees may enroll in either of our Cigna dental plans: the High PPO or the Premier PPO. The Premier PPO offers a higher Plan Year maximum, a greater orthodontia maximum, lower cost share on endodontics, periodontics, oral surgery and coverage for implants.

To verify that a dentist is in the Cigna Total DPPO network, visit **www.mycigna.com.** You may search for network dentists before your benefits become active by visiting **www.cigna.com** by selecting "Find a Doctor, Dentist or Facility" and following prompts to search by type of dentist or by dentist name. When asked to select a plan, choose "*DPPO/EPO > Total Cigna DPPO*".

Cigna does not issue dental ID cards. Members don't need an ID card to receive care from network dentists. Simply make your appointment and provide identification to the office staff. They can verify your coverage with Cigna. You can also access a digital ID card after your benefits are effective and you have activated your **www.myCigna.com** account.

Dental Work in Progress

If you are currently receiving general dentistry treatment:

If you enroll in the plan for the first time during your new hire or open enrollment, your Cigna dental plan may not cover charges for services that are already in progress. Treatments that may be considered "in progress" are those that started while you were covered under another dental plan but not finalized before your Cigna dental plan becomes effective.

Examples of these services are root canal therapy, crowns, partials, dentures, bridges. If you started a treatment/service under another carrier that has not been completed once your benefits are effective, the claim should first be filed with the other carrier.

If you are currently receiving Orthodontic treatment:

You could qualify for "orthodontia in progress" coverage if your teeth are being actively moved (by bands or appliances, such as braces) when your coverage starts.

Your benefit amount is determined by your plan's coinsurance level for orthodontia and the months of active treatment you have left when your plan starts.

Your plan contributes to your costs until the lifetime orthodontia maximum has been met or until active treatment is done (whichever comes first.).

For more detailed information, please review the work in progress flyers located in the benefits library on **www.zarabenefits.com.**

Health Advocate

Inditex has partnered with Health Advocate to offer you personalized support to improve your health and well-being, ***all at no cost to you!***

We know our health care system can be pretty tricky to navigate and it helps to have a service to advocate on your behalf when health care claims/issues become too complex to solve on your own.

A Personal Health Advocate understands the intricacies of the health care system and how to navigate through it. He or she will help you should you have medical/Rx questions, or need assistance in locating the right healthcare resource. Advocates are registered nurses (backed by a staff of medical directors and administrative experts) who will assist you with healthcare related issues, such as:

- Finding the appropriate medical providers for your health needs.
- Finding resources for second opinions
- Coordinating benefits between dental, medical, worker's compensation and disability carriers.
- Assuring correct application of provider network status.
- Managing health services for elderly parents.
- Assistance negotiating reductions in out-of-network fees above reasonable and customary amounts and more.
